# Tank.tv presents various films by John Latham

Â www.tank.tv presents the various works of late artist John Latham

The influence of John Latham (1921-2006), an artist whose work includes painting, performance and film to mention just a few, has extended far beyond the boundaries of the art world. Interested in theoretical physics, Latham developed an opposing cosmology which rejected the primacy of space and matter and favour of time and event. Currently streaming on tank.tv from the 1st-15th March 2009 are Unedited Material from the Star, Talk, Mr. Bard, Speak, Britannica, and Erth.

The individual links for the films are:
