Digital Diaries: risky

One step beyond Jennicam is Digital Diaries by Natacha Merritt. Natacha fucks people and photographs herself doing it. Edgy, voyeuristic, very real and already spreading virally among Mutoid porn fans. [Taschen £16.99]

Digital Diaries: risqué

What is it that makes today's digital porn stars so different, so appealing? Is it the relaxed obedience of their soapy suds; the tame tedium of their cute and curvy ways; their down 'n dirty 24-hr work ethic or the warm glow of clean, pale-skinned sexual 'equality'? This DiY Bo-peep would rather the limbless slug and horse uniforms of old, scary pre-liberation Bizarre any day. How bizarre. [Taschen]
