DMZ, 2003 . . . . . 1

# DMZ, 2003

[IMAGE]

Digital media and art festival held at Limehouse Town Hall, London, and developed by a core group of Arts Council funded cultural organisations working under the umbrella of Developing Digital Media London – DDML. Due to its complex status as a collaborative event cum showcase cum piece of funding advocacy, DMZ was never going to be simply a festival. There is ample documentation in several core sites though, meaning you can make up your own mind!
