[Mute-social] Query for Digitales, 1-3 June in Brussels

Hi -

I'm giving a talk at this women/information technology event in brussels in June organised by Constant VZW and Laurence Constant is on the lookout for a 'feminist economist' with a strong background in network technologies/information politics (I imagine) - anyone come to mind?

"Btw if you have any suggestion of a feminist man or woman who could give a talk on the future of the economy, because the trainees and trainers from interface3 are really concerned about how they are going to make a living in a world of globalisation, outsourcing, and so on and i would like to give them a not so pessimistic view on this, because a centralized and patriarchal enterprise was not always good to women, and migrants..."

Thanks!
