noise_produce with Martin Howse (ap/xxxxx <http://1010.co.uk>)

xxxxxw

February 17th 2pm. pickledfeet, Linienstrasse 54, Berlin 10119

Electro-mysticism is a materialism and only "gathers that which is". Circuit diagrams and bodies relate to each other as the front and reverse side of the same piece of paper, recto and verso, then "Not even in the worst times of night, with pencil words on your page only Delta-t from the things they stand for?"

[Friedrich Kittler: Pynchon and Electromysticism]

The noise_produce workshop is concerned with techniques for the elaboration of experimental noise electronics (mis-use of functional digital electronics) and a generic means of production traced from defined circuit diagram to copper-etched board.

Please bring a soldering iron and any spare/salvaged electronic parts of interest. All other materials will be supplied.

Please RSVP m@1010.co.uk to reserve places as these are limited.

Course fee (inc. materials 15 Euros)

xxxxx, pickledfeet, Linienstrasse 54, Berlin 10119

U2, Rosa-Luxemburg-Pl.

U8, Rosenthaler Pl.
