Huge events are driving HXPN way up. This one is still trading at only a fraction of its book value. A massive PR campaign has kicked off with some exciting news:

With the price of precious medals continuing to skyrocket, mining companies had another year of record profits. With limited supply and high demand, experts agree that the mining boom shows no signs of abating.

Harris Exploration is in the right place at the right time and is letting everyone know it with a major PR campaign! Friday's announcement is just the start. More great news is on the way. This is a company that can quite literally strike gold and when that announcement hits the street watch out!

Get in while there is still time!!!
